AUSTRIA INSOLENTLY TAUNTS THE POWERS; RUMOR OF FERDINAND'S MURDER IS FALSE

AUSTRIA ANNEXES STATES FORMALLY

ALSO PROCLAIMS CIVIL LIBERTY

CONFERENCE IS NOT LIKELY

GERMANY STANDS IN WAY OF
SUCH ACTION

AUSTRIA OPENLY DEFIANT

Announcement Made that She Does
Not Care Whether Powers Like
It or Not

NEW YORK, Oct. 7.—An un-
confirmed rumor was circulated
in Wall street that Prince Ferdi-
nand of Bulgaria was assassinated
today.

NEW YORK, Oct. 7.—Cable
dispatches late today dis-
credit the story of the assassina-
tion of Prince Ferdinand.

ATHENS, Oct. 7.—Dispatches
apparently confirm the Constani-
nople rumor that Prince Ferdi-
nand of Greece was assassinated
while attending the Serbian
army maneuvers. The city is
thrown into the wildest excite-
ment by the report. This may
be the basis of the rumor of
Ferdinand's assassination.

VIENNA, Oct. 7.—The Austrian
foreign office today announced that
neither her annexation of Bosnia
and Herzegovina, nor Bulgaria's de-
claration of independence was a matter
of concern to other powers, and she
did not care whether the annexation
was recognized by the other powers or
not. This statement was issued as a
protest against the calling of an in-
ternational conference to revise the
Berlin treaty. The statement was re-
garded by many diplomats who fear
this defiant attitude will increase the
determination of the powers to
thwart Austria's aggrandizement
schemes.

This defiant note followed the cul-
minating step in the Austro-Bulgari-
an program last night when Emperor
Francis Joseph formally proclaimed
the practical annexation of Bosnia
and Herzegovina to the dual monar-
chy.

Tells Ministers of Purpose.
The emperor has also addressed a
rescript to Baron von Aehrenthal, the
Austro-Hungarian minister of foreign
affairs, in which he directs the min-
ister to issue a proclamation to the
people of these provinces, assuring
them the full measure of civil rights,
liberty of person and conscience, se-
curity of property, respect for their
customs, liberty of the press, the
right of emigration, petition, and as-
sociation; the administration of the
law by competent judges, and the es-
tablishment of a representative as-
sembly.

High officials state that the an-
nexation is irrevocable. Austria even
is unwilling to participate in an in-
ternational conference unless assured
that the matter will not be discussed
at all. The provinces, they say, have
been conquered by Austrian culture;
the Austrian sword must remain
with the dual monarchy.

The present situation is as follows:
Turkey calls upon the powers to
preserve to it what they guaranteed
by the Berlin treaty.

Austria and Bulgaria strongly de-
clare their determination to keep
what they have taken.

Serbia is protesting belligerently
against being hemmed in more
strongly between two unpopular
neighbors and against having the
Serbians in Bosnia absorbed into the
Austro-Hungarian nationality.

The other powers concerned in the
Berlin treaty are discussing the hold-
ing of an international conference to
consider this most delicate of prob-
lems, with every likelihood that the
meeting will not be held.

Germany the Obstacle.
LONDON, Oct. 7.—Germany is
probably the obstacle in the way of
an international conference, accord-
ing to an opinion expressed by Brit-
ish diplomats today. No matter what
reasons are officially assigned for the
failure of the proposed conference,
England will hold the Kaiser respon-
sible. Austria is hungry to stand as
the nominal leader of the opposition.

Crete May Secede.
CANSA, Crete, Oct. 7.—The island
of Crete, which occupies the same po-
sition towards Turkey as Bulgaria
did, is momentarily expected to de-
clare its independence and to affect
a union with Greece.

DEVELOPMENTS IN BALKAN CRISIS

- Emperor Francis Joseph of Austria-Hungary issues proclama-
tion annexing Bosnia and Herzegovina, granting inhabitants of both
full civil and political rights.
- Excitement in Serbia aroused by Austria's act growing; all pol-
itical parties unite to protest against Francis Joseph's alleged at-
tempt to seize surrounding country and isolate nation; war talk
heard in all districts; Austrian legation attacked.
- France and Great Britain in complete accord as to action of
calling conference of powers to prevent war in Balkans. The ports
said to be ready to accept advice from the two, while Russia and
Italy are expected to give approval.
- Germany blamed by other powers as using Austria as catspaw
to drag territory it wants from Turks; Kaiser seen as only possible
block to plans for conference to preserve peace.
- Austro-Hungarian foreign ministry issues note denying annexa-
tion of districts is in conflict with Berlin treaty.

Enthusiastic Crowd Greets Speakers
and Tonight Meeting Will Be Held
in Burns; City Meeting Tomorrow

Earl Mossey, a prominent former
Republican who now is convinced, it
is wisdom to elect Bryan over Taft,
was last night elected president of the
Bangor Bryan-Kern club, the or-
ganization of which marked the offi-
cial opening of the democratic pres-
idential campaign in La Crosse coun-
ty. The meeting was addressed by
County Chairman J. F. Doherty and
Prof. Schubert and was an enthu-
siastic one, according to Mr. Doherty,
who is immensely pleased with the
reception he says democratic argu-
ments are receiving.

Tonight Prof. Schubert and Attor-
ney C. L. Hood, candidate for dis-
trict attorney, will speak in the town
of Burns.

At a meeting to be held at 8
o'clock tomorrow night at the C. S.
P. S. hall, corner of Ninth and John-
son streets, another Bryan and Kern
democratic club will be organized.
The meeting is to take the form of
a democratic rally. Attorney Eugene
Huff and Chairman Doherty will be
the speakers at the meeting.

MADISON CLAIM IS PREMATURE

LA CROSSE PROTEST HAS NOT
YET BEEN DECIDED

MADISON PAPER "PREVIOUS"

Elliott Says Moll Has Written to Ft.
Wayne to Substantiate Mad-
ison's Claim to Conroy

The Madison State Journal an-
nounces Madison is finally in second
place as League President Moll has
decided the La Crosse protest in fa-
vor of the Senators. Moll has made
no such decision and such announce-
ment is erroneous, says President
Elliott of the La Crosse association.
Madison claimed to Moll that Con-
roy, the disputed player, was secur-
ed from Ft. Wayne early in the sea-
son, but had been permitted to play
with a semi-pro team in Chicago un-
til needed at the end of the season.
These excuses Mr. Moll is now seek-
ing to verify from Indiana, where
Conroy came from, and Mr. Elliott
is expecting to hear daily. If the de-
cision is against Madison La Crosse
will get second place, instead of
third.

Mr. Elliott says the resolution
raising the guarantee for each game
from \$30 to \$50 was laid on the table
and will not be further consid-
ered because it would be unfair to
cities having a poor week day at-
tendance. The present guarantee of
\$35 and additional on Sunday is
most satisfactory and will be allowed
to continue in force.

Reorganize at Madison.
The Madison association is to be
reorganized for 1909. President
John Moran, who has been an effi-
cient leader, will be re-elected.

MR. TAFT PLEDGED TO AID WATERWAYS

CANDIDATE ADDRESSES CONVEN-
TION IN CHICAGO

IS INTRODUCED BY DENEEN

Wants a Comprehensive System—Fav-
ors Bond Issue—Railroads
Not Injured

CHICAGO, Oct. 7.—President
Wm. K. Kavanaugh called to order
the waterways association conven-
tion at 10 o'clock today.

Four thousand delegates, includ-
ing 250 governors, congressmen and
public men, were present.

In opening, Kavanaugh outlined
the purposes of the association, say-
ing it could be expressed in the
broad question: "Shall our national
prosperity be promoted and perpetu-
ated?"

Bishop Samuel Fallows invoked.
The report of Wm. F. Saunders, the
secretary, paid tribute to the aid given
by Roosevelt and the governors
who acted as members of an advisory
board. It declared this assistance
was responsible for arousing senti-
ment to the necessity of the develop-
ment of the inland waterways.

It referred to the energy of members
in exerting influence on congress-
men to enact favorable legislation.
Routine business was transacted.
Gov. Chas. Deneen of Illinois in-
troduced Taft. At the conclusion of
Taft's speech, the convention ad-
journed until Thursday. The dele-
gates this afternoon went to Lock-
port to view the new canal work.

Taft Pledges Support.
Judge Taft pledged himself to a
generous policy in the improvement
of rivers and lakes. He declared the
cost of making ocean harbors in-
land cities of the great lakes and the Mis-
sissippi and its tributaries will be
enormous, but would be a splendid
investment, paying tremendous divi-
dends in saving freight charges and
opening undeveloped areas. He de-
clared the time is ripe to consider
improvements "according to a gen-
eral comprehensive plan so as to
mould them into a complete system
of transportation."

Referring to the growth of in-
dustrial activity demanding the ex-
pansion of water ways, he said:
"The policy of waterway improve-
ment does not operate to the dis-
advantage of railroads. The natural
economy of the transportation of the
bulk raw material commanding the
lowest freight rates falls to the wa-
terways, while the manufactured
goods have the railway. By reason
of lower water rates and the un-
limited carrying capacity of the wa-
terway, you can carry millions of
tons of raw material to the furnaces
and factories to be converted into
corresponding tons of merchandise
capable of bearing a higher freight
charge."

He declared the improvements pro-
posed by the convention should be
treated as one of the great inter-
prises like the Panama canal and
that provision should be made by
bonds or otherwise, for getting a
fund sufficient to complete the pro-
ject as rapidly as possible.

When the routine business of the
convention was taken up, Delegate
Caldwell, of Memphis, tried to stam-
pede the convention for the old of-
ficers, without the formality of nom-
inations. This action was declared
to be out of order, and the attempt
was frustrated.

New Orleans Next.
The nominating committee ap-
pointed today are expected to rec-
ommend that the next convention be
held at New Orleans.

WASHINGTON, D. C., Oct. 7. —

ERB IS MURDERED, WOMEN ARRESTED

SISTER-IN-LAW OF POLITICIAN
IS ACCUSED ONE

WIFE ALSO UNDER SUSPICION

Woman's Story of Shooting Hard to
Reconcile With Facts as Found
by the Police

PHILADELPHIA, Pa., Oct. 7. —
Capt. J. Clayton Erb, confidential
secretary to Israel Dufur and one
of the political leaders of Philadel-
phia, was shot and killed at his home
at Glen Riddle, several miles outside
of Media, last night.

Investigation by a coroner's jury
today revealed the fact that Erb was
killed by bullets fired at his back.
Sensational revelations are expected
in the shooting case.

Mrs. Katherine Beisel, a sister of
Mrs. Erb, is under arrest, and despite
her statement that she fired the shot
in self defense, is today facing a
charge of first degree murder. The
police declare Mrs. Erb will also be
arrested.

Mrs. Beisel said she wrested the
revolver from Erb at his home last
night and shot and killed him when
he attacked her for protecting her
sister. She will make no other state-
ment.

District Attorney Macdade says the
woman could not wrest a revolver
from a man bent on murder. Erb
was attired in pajamas at the time
his shot body was found in the cor-
ridor on the second floor, where both
Mrs. Beisel and Mrs. Erb say the
shooting took place. They admit the
quarrel occurred on the floor below.

Mrs. Erb Arrested.
Following conferences between the
detectives and Mrs. Beisel, District
Attorney Macdade this afternoon or-
dered the arrest of Mrs. Erb, who
was taken from her home and placed
in a cell at the Media jail, where
Mrs. Beisel is locked up.

Coachman Involved.
A feature which the police are not
overlooking in the investigation to-
day is that the first news of the kill-
ing was taken to Media by Eugene
Paulson, a negro coachman, who
some time ago was indicted on the
testimony of Mrs. Erb for threaten-
ing an assault. Despite this indict-
ment the negro continued his posi-
tion at Erb's. According to his
story, Paulson was sleeping in his
place in the stable when Mrs. Beisel
called to him and told him that Erb
was killed and wanted him to get
help.

Negro Coachman as Spy.
About two years ago Erb was mar-
ried and moved to Delaware county.
For a time everything went along
smoothly, but recently there were
family quarrels.

On Aug. 24 Mrs. Erb, who was
Mrs. W. G. Rothermel, a divorced
woman, caused the arrest of Paulson,
the colored coachman, on a charge of
threatening her life.

At the hearing in the case she said
that she had been informed that
Paulson was acting as a spy for Capt.
Erb, who stood by the coachman at
the hearing as against his wife.

He subsequently explained that he
did so because he expected to insti-
tute proceedings against Mrs. Erb
and expected Paulson to be an im-
portant witness in the case, in which
Mrs. Katherine Beisel, Mrs. Erb's sis-
ter, was to be involved.

Duped at the Altar.
Capt. Erb declared at the hearing
that he had been duped when he
married Mrs. Rothermel and that
her conduct during his absence at
Pine Plains last summer had been
improper.

Several weeks later Mrs. Erb

PINCHOT ALSO IS ASSAULTED

California Ex-Governor and Utah
Governor Defend Forester—Flem-
ing on Insurance

SAN FRANCISCO, Oct. 7.—De-
fending the Harriman railroad policy
from acrimonious attack, J. C.
Stubbs, vice president of the South-
ern Pacific, was the storm center of
the trans-Mississippi congress today.
The assault was the result of a re-
solution that better service be main-
tained from San Francisco and Pan-
ama, and brought in the Pacific Mail
company.

Resolutions denouncing the policy
of Gifford Pinchot, head forest ser-
vice were supported by the cattlemen,
ex-Governor Pardee of California,
and Governor Cutter of Utah de-
fending Pinchot and the president.

Insurance Address

Fred W. Fleming delivered an ad-
dress on insurance. Col Fleming re-
cited the history of life insurance and
declared that in the trans-Mississip-
pi country alone there is in insur-
ance on the lives of its citizens prac-
tically five billion dollars. He added
that it is well within the bounds of
conservatism to estimate the amount
of premiums that will be paid to
life insurance companies by people
of the twenty-two states during the
next ten years at \$1,250,000,000. He
urged the western people to keep
these immense sums in the west in-
stead of sending them east, in order
that they may be used for the de-
velopment of the great western country.

He predicted that if American life
insurance companies in the next 20
years continue the present percent-
age of growth, their accumulated as-
sets in 1930 will dwarf into insignifi-
cance the combined valuation of all
the savings companies, banks, trust
companies and railroad companies of
the United States. The speaker re-
voked in figures and stated that one
American company has more policy
holders than the combined popula-
tion of California, Washington, Ne-
vada, Utah, Wyoming, Montana, Ida-
ho, New Mexico, Arizona, Colorado,
Oklahoma, Nebraska, Louisiana and
North and South Dakota. The re-
sources of a nother company, he stated,
equal in amount one-half of the
entire capital of all the national
banks in the country.

R. T. WILSON DIES AT AN EARLY HOUR

OWNER OF FAMOUS RACE
"PRESIDENT" EXPIRES

WAS SICK ONLY A WEEK

Son and Daughter Are at Bedside
When End Comes—Was Famous
for Success With Horses

R. T. Wilson died this morning at
2 o'clock, at the residence, 234 South
Sixth street. Mr. Wilson was fami-
liarly known as "Dick" Wilson in the
racing fraternity throughout the
country, as the owner and trainer of
the "President," the fastest trotting
stallion that ever raced in the state.

Mr. Wilson had been ailing for
nearly a year, but had been confined
to his bed only a week before the end
came this morning. He leaves a
daughter, Mrs. Samuel L. McKee, of
West Salem, and a son, J. H. Wilson,
of New York, both of whom were at
his bedside when the end came.

R. T. Wilson was born in Medina,
New York, Oct. 14, 1841. He came
to La Crosse in 1869 and has seen
and participated in the growth of the
city up to the present time. When
Mr. Wilson came to La Crosse he was
engaged as foreman for G. R. Mon-
tague, who was then engaged in the
marble and monument business. After
being in the employ of Mr. Mon-
tague for eight years he entered in
partnership with C. A. Shimmian and
engaged in the marble business, occu-
pying the building on the corner
of West avenue and State street,
where they operated the first steam
marble-cutting establishment in the
city.

On leaving the monument business
Mr. Wilson then entered into the
butcher business, owning and operat-
ing a market on Fourth and Jay
streets, where the Gund building now
stands.

After selling out the market Mr.
Wilson then embarked into the liv-
ing business, to the time of his death
being head of the firm of Wilson &
Robertson, where he became known
as an expert horse trainer and driv-
er. The first horse of any note that
he owned was the stallion "Maesta,"
which he purchased from J. C. Easton,
when the brute became so easily
that Easton could do nothing with
him. Mr. Wilson took the horse and
trained him, developing him into a
fast racer. The next horse of repute
was the pacer "Wilkesseps," which
stepped a mile in 2:10 1/4. After him
came "The President," the horse that
made Mr. Wilson famous throughout
the country. The President made the
fastest trotting record for stallions
ever made in the state, 2:07 1/2. The
President died suddenly on Tuesday,
May 21, 1907, and Mr. Wilson was
deeply grieved at the loss which
meant so much to him. He valued
The President at \$15,000. He im-
ported a new horse, "Richard Lowndes,"
almost a full brother and blood of
the President, which he hoped to make
as famous as his brother, but his efforts
were stopped by his untimely demise.

The funeral will be held at 2
o'clock Friday afternoon from the
Masonic temple under the auspices
of the lodge which will be assisted
by Rev. J. S. Lowe. Interment will
be made in the Oak Grove cemetery.

TWO REMARKABLE CURES OF ECZEMA

Over Twenty-three Years Ago Baby had Severe Attack—Years Later Grandfather Suffered Torments with the Disease—Virulent Sores Developed from Knees to Toes.

BOTH OWE COMPLETE RECOVERY TO CUTICURA

"In 1884 my grandson, a babe, had an attack of eczema, and after trying the doctors to the extent of heavy bills and an increase of the disease, I recommended Cuticura and in a few weeks the child was well. He is to-day a strong man and absolutely free from the disease. A few years ago I contracted eczema, and became an intense sufferer. A whole winter passed without once having on shoes, my ankles and nearly from the knees to the toes being covered with virulent sores. I tried practitioners, specialists, dermatologists, etc., to no purpose. My daughter-in-law reminded me of having prescribed Cuticura for my grandson more than twenty years ago. I at once procured the Cuticura Remedies and found immediate improvement and final cure, till to-day, though well along in years, I am as though I had never had that disease. I am well known in the vicinity of Louisville and Cincinnati, and all this could be verified by witnesses. M. W. LaRue, 845 Seventh St., Louisville, Ky., April 28 and May 14, 1907."

The agonizing itching and burning of the skin, as in eczema, the frightful scaling, as in psoriasis; the loss of hair and crusting of scalp, as in scalded head; the facial disfigurement, as in acne—all demand remedies of extraordinary virtues to successfully cope with them. That Cuticura Soap, Ointment, and Pills are such stands proven by testimonials of remarkable cures when many remedies and even physicians have failed. One set is often sufficient to cure.

Cuticura Soap (25c) to Cleanse the Skin, Cuticura Ointment (50c) to Heal the Skin, and Cuticura Pills (50c) to Purify the Blood. Sold throughout the world. Foster Drug & Chemical Co., Sole Proprietors, Boston, Mass.

SPORTING NOTES

TOMAH INDIANS TO PLAY ON SATURDAY

OFFICIAL OPENING OF FOOT-BALL SEASON

LA CROSSE HAS HIGH HOPES

Coach Cooper is Training the Team to a Nicety and Expects to Scalp the Red Skins

Saturday, Oct. 10, is the first real opportunity for lovers of football to get a line on the La Crosse high school's team. The Tomah Indians play here then and according to their manager, "expect to give any high school in the state a hard battle." However if this is taken with the customary grain of salt, it will probably amount to a good hard practice game, affording plenty of opportunity for the first team to try out the trick plays which are being rapidly perfected under Coach Cooper's direction. Practically all of these deal with the forward pass and on side kick which requires careful study and patient practice before they can be worked smoothly.

The first squad, however, has had ample opportunity to try these tricks out with the second team as opponents. The present second team is no mean adversary, composed as it is, of men who could make the first team were it not because of standings, or of others trying out for first team positions. To prove this is the result of the game played Saturday between the first and second squads. The result at the end of 25 minutes' play was 5 to 0 in favor of the second team. This does not mean that the first squad is poor as the second team men knew the signals used by the first team and that helped a good deal of course.

Great Improvement in Work.

Tuesday night showed a great improvement in the first team's work. Within three minutes of play the first team had scored a touchdown and two more touchdowns were scored in nine more plays by the first team men against 14 men on the second.

The regular lineup is somewhat changed from that of the alumni game played two weeks ago, owing to the injuries to Tiedemann, Grimes, Hendrickson and M. Novak. However, Saturday will see all of these save Hendrickson in the game. It is hoped that Kelley, who is ill with diphtheria, will soon be back as he has been running the second team very successfully. Quarterback Ray has also been ill but has not been kept out of the game much. Coach Cooper has shifted Shaw to quarter while Ray felt indisposed. Now that Ray is back he has kept Shaw at quarter and Ray at end, when playing offensive and alternated their positions when playing defensive.

Good Punters Scarce.

The coach has been having difficulty in securing good punters. Roddy, Jacobson, Ray and Savage have tried out with prospects favoring Roddy although Jacobson is excellent on the kickoff.

Anyone wishing detailed information on the work can secure it by going to Seventeenth and Cass streets where scrimmage occurs each night from 5:00 to 5:30 o'clock with special scrimmage on Wednesday.

Sparta Here Friday the 23rd.

Nothing short of a cloudburst, tornado or heavy snowstorm will prevent the game being played next Saturday. All games will be played rain, snow or shine. After this game comes Winona, Oct. 17, and then—"Friday the 23rd"—comes the redoubtable Spartans. Efforts are being made to have the business houses close on this Friday as it will be the only opportunity afforded businessmen to see La Crosse play on any other date than Saturday. The Thanksgiving game must be played at Sparta. The management earnestly hopes that everyone will make it a point to see the game on "Friday the 23rd" if not on the other days.

MINNESOTA BANK IS BURGLARIZED

OLIVIA, Minn., Oct. 7.—The State Bank of Danube was burglarized. Twenty-three hundred dollars in cash was taken. No clue. The safe door was blown through the plate glass into the street. The Rev. Reed was coming from the depot, after meeting the morning passenger train. He passed the bank and saw a light and men working. Thinking it was his friends, he whistled, and was answered by a pistol shot, which woke the town. No one dared to make a fight. The robbers escaped in the darkness.

MRS. THAW WITNESS.

NEW YORK, Oct. 7.—Mrs. William Thaw has gone to White Plains, where she will stay until after the trial of her son Harry to endeavor to establish his sanity. She will be the most important witness in his behalf. She has just returned from Europe, going directly to White Plains for the hearing.

CHICAGO, Oct. 7.—The Detroit

Tigers, champions of the American league, won the title a second time yesterday afternoon. The Detroit team defeated Chicago's pride in the thrilling final contest of the year 7 to 0, pushing the Sox back into third place and shattering the dream of another world's championship series exclusively in Chicago, with the Cubs and Sox fighting it out to the finish.

For the second time Hugh Jennings' game bunch of ball players will contest for the world's championship in baseball—and this time, Jennings and his men believe, they will get their revenge on the National league for the overwhelming defeat they suffered at the hands of the Cubs last year. They will play with Chicago or New York nationals—the winner of Thursday's game in New York.

Accustomed to thrilling finishes as the American league is, there never has been a more sensational and close battle than this, when the pennant was in doubt until the last man was out in the last inning of the last game of the year.

Good judges of baseball picked either the White Sox or the Tigers to win before the season opened, and the outcome shows the wisdom of the prophecy. St. Louis was a pennant contender all year, but dropped out a week before the end; Cleveland came on with a tremendous spurt at the finish, but was put out of the running by the defeat in St. Louis Monday.

This final series between the Tigers and the Sox, on the Chicago south side grounds, settled the battle. Both teams knew before the series opened that the Sox must win all three games to win the pennant, and that if they dropped one of the three Detroit would again be the league champions.

Detroit made a bad start and was in last place at the start of the season. The defeat by the Cubs last fall seemed to have broken the Tigers' hearts, and they played bad ball. Finally Jennings got his machine to running smoothly. Cobb, Crawford and McIntyre began hitting hard and the champions regained first place.

RACE MEETINGS AT GRAVESEND

NEW YORK, Oct. 7.—P. J. Dwyer expressed much confidence in the future of racing. He said:

"You can say for me I will conduct race meetings at Gravesend and Aqueduct next year, no matter who is governor of the state of New York. I have made a fortune out of the racing game, and I will sink it all if necessary in order to keep the game alive. I will not quit until I am either dead or broke. I can live on \$25 a week if I am driven to it, but I do not intend to have people say that I quit the turf under fire. I believe that racing will thrive again and for that reason I determined to do my share to keep the sport before the public."

"Put this as plainly as you can. I mean business."

B. nine 3 to 0 in a midnight game. Play started at 11:15 o'clock.

All of the officers upon being elected pledge their energies to the advancement of the interests of the association and especially for the enactment by the legislature of a law to allow sheriffs to run for a second term.

Sheriff Knell said that Wisconsin was the only state in the union that limited the sheriffs to one term, and he said he would like to see a uniform system everywhere.

She told the police that she kept her money in a black pocketbook which she secreted in a bag of rags. These she had sold for 8 cents. Detectives were notified, got out and found the Jew and he said he had the pocketbook, \$4 and the checks. Later the woman remembered that there was \$4 instead of \$47 in the book.

MAY SEND BODY TO PARIS

CHIPPewa FALLS, Wis., Oct. 7.—Louis Vionnet, a tramp who was run over and killed by a freight train here July 7, was the son of a prominent family in Paris and had left France years ago to make his way around the world on his own resources. This was learned in a letter received here containing a description and photograph of the dead man. Mr. Vionnet's mother desires to have the remains exhumed and sent to Paris.

BABE SAVED FROM DISGRACE.

ST. PAUL, Minn., Oct. 7.—Rather than see an innocent babe with the disgrace of being born in a prison cell Mrs. J. Robertson, who will soon become a mother, was removed from the central police station to the city hospital.

The woman was arrested by Officer Louis Lemiere, while she was staggering along Jackson street near Seventh in an intoxicated condition. She was taken to the central police station and placed in the care of Police Matron Mrs. J. Horan, who, after committing the woman to a cell in the woman's ward, discovered that her charge was in a serious physical condition, and summoned Police Surgeon A. J. Dohm. Dr. Dohm ordered her removal to the maternity ward at the city and county hospital.

Ethereal vs. Mundane

Two men sat on a viaduct bench one starry evening last week. Through powerful glasses they were examining the firmament. It was apparent that one of them was an enthusiastic astronomer. He seemed sufficiently familiar with the smallest star to call it by its first name.—that is, if stars have first names. Drawing his companion's attention to a particular star in close proximity to the handle of the dipper, he said:

"Perhaps you may be able to appreciate the immensity of distance between that star and our earth when I say it would take more than 100 years for a 40-horse power automobile running full speed to reach it."

By the quantity of awe in his friend's voice, it was plain that he was unusually impressed, as he said: "No? A hundred years? Why, man, think of the gasoline bill."—New York Times.

GOVERNORS OF THE WORLD SERIES

Garry Hermann at top; Ban Johnson, president of the American league, at left; Harry C. Pulliam, president of the National league, at right.

In a few days reports of world's series games are due to occupy the leading places in the sport pages of the papers throughout the country. To govern the world's series will be the duty of the national baseball commission, consisting of Garry Hermann of Cincinnati, chairman; Ban B. Johnson, president of the American league, and Harry C. Pulliam, president of the National league. Everything that could be done to date to make ready for the series has been put through. There can't be another thing done until the pennants are decided.

According to present plans it will be Friday, October 9, that the games will start and if this plan is to be carried out the commission members must get together immediately after the pennant winning to arrange the schedule.

MAY ABOLISH ALUMNI GAME. VERDICT IS MANSLAUGHTER.

IOWA CITY, Iowa, Oct. 7.—Injuries to the alumni and lack of interest shown in the contest has caused the Iowa board in control of athletics to consider the abolishing of the alumni game at the university. Head Coach Mark Catlin sustained a broken nose, Assistant Coach Griffith, a strained shoulder, and others of the members of the alumni eleven were more or less battered.

Prof. A. G. Smith of the board sounded the sentiment of the supporters of athletics when he questioned the benefit of the game to the alumni. He emphasized the risks the old time "stars" ran in playing anywhere from two to nine years after finishing their college course.

QUARREL RESULTS IN MURDER

PIPESTONE, Minn., Oct. 7.—Two sons of Hans Dam and Mads Jorgenson, of Ruthton, this county, aged 14 years, while out hunting with other boys, engaged in a dispute over who shot a muskrat. Young Dam leveled a rifle at Jorgenson and said "I am going to shoot you!" and pulled the trigger. The bullet went through Jorgenson's head, killing him instantly. The result of the coroner's inquest has not yet been announced. Young Dam is now in jail in this city.

The democratic committee has "shown up" "trust buster" Kellogg as a corporation attorney. The case against him is clear. He has accepted retainers as a corporation lawyer from some of the big trusts. Of course the purpose of the strictures upon him is to further identify the republican party with the trusts, but we are inclined to take the courageous work of Kellogg in fighting

POPULAR MUSIC.

(Philadelphia Public Ledger.)

Popular music has melody—it has rhythm—it has simplicity. It is easy to remember and easy to quote. School girls can play it without doing serious violence to the integrity of the musical score or the main intention of the composer. In listening to popular music little or no effort on the part of the listener is required. One is borne along on the full flood tide of harmony, the flowing stream of melody. And to give oneself up to the untrained enjoyment of music of this kind is quite as legitimate a recreation as to read a novel, to witness a comedy. The music that is easy to perform and easy to remember has and holds its place.

NOTABLE WEDDING ON NORTH SIDE

MISS LILLIAN TIETZ BECOMES
BRIDE OF ALBERT RAMBATH

CEREMONY AT NEW CHURCH

Rev. Thurow Officiates and Course
Dinner at Home of the Bride
Follows Service

A very pretty wedding was performed at 8 o'clock last night by the Rev. Thurow at the Avon Lutheran church, when Miss Lillian Tietz of Charles street was married to Mr. Albert Rambath of Buffalo City. They were the first couple married in the new church and the church was crowded with friends of the happy couple. Mr. John Tietz, brother of the bride, was best man, and Mr. Henry Tietz, another brother of the bride, was groomsmen. Miss Minnie Tietz, a sister of the bride, was the maid of honor, and Miss Dora Schwartz was bridesmaid. The bride was very prettily dressed in embroidered white, trimmed with Irish point lace, de Paris net and chiffon trimmings; the maid of honor's dress was made of organdie trimmed with de Paris net and Valenciennes lace; the bridesmaid's dress was of pink silk, trimmed with silk French lace. The bride carried cream bride's roses and wore a bouquet in her hair. The maid of honor carried white carnations, and the bridesmaid carried pink carnations. The West Avenue church choir rendered a few selections, and Prof. Frey played the wedding march.

After the church services the couple and friends left for the bride's home, 1218 Charles street, where supper was served, in four courses. The first was wine and during the first course Rev. Thurow gave a toast in honor of the bride. The second course was chicken, mashed potatoes with brown gravy, fruit salad, served on lettuce leaves, and a roll with coffee. The third course consisted of chicken salad with wafers, plates decorated with green, and the fourth course was ice cream and cake, after which the bride cut the wedding cake with a pearl handled knife tied with white satin ribbon. The table was decorated with smilax and ferns, and in the center was a massive bouquet of carnations and roses. The evening was spent in music and games.

The guests were Mr. and Mrs. Fred Rambath of Buffalo City, parents of the groom; Mr. and Mrs. Brackman and children, Violet, Meta, Roy, Raymond and Fred, of Prairie du Chien; Mrs. Albert Oehler and children Nellie, Wanetta and Albert, Mr. and Mrs. Weiner and children, Joseph and Edith, Rev. and Mrs. Thurow, Mr. and Mrs. J. B. Turnbull, Mr. E. Morgan, and Mrs. Lumley. The happy couple received very many beautiful gifts. After a trip to the groom's home they will return to La Crosse and make their home at 1442 George street, which is already furnished.

MEXICAN DIET Not Conducive to American Energy.

"After about thirteen years in Mexico, where I was on a Mexican diet into which coffee and greasy food enter largely, I found that everything I ate distressed me," writes a man from our neighboring republic.

"Nervous break-down with pain in the heart caused me to give up mental work. After trying various stomach remedies without benefit, I found relief, at last, by eating Grape-Nuts and cream.

"I could digest Grape-Nuts, and the heart and nervous symptoms soon improved to such an extent that I could do some brain work and a fair day's manual labor."

"When away from home I get out of sorts from eating wrong food, but at home a few days on Grape-Nuts puts me right again."

"I once worked 10 consecutive hours on a dike without much fatigue, by having a small box of Grape-Nuts in my pocket and eating a little dry, whenever I felt faint. I can now teach all day without fatigue, after a breakfast of Grape-Nuts and cream, stewed fruit, toast and Postum."

"That old dull feeling, when I tried to live on my former diet, has disappeared and the delightful sensation of being fully nourished is present now. And the smile on our 18 months old boy at a sight of a Grape-Nuts package is worth seeing. There's a Reason."

One of Mr. and Mrs. Mills' experiences was that of being lost on the prairies from 10 p. m. until 3 o'clock the next morning, when a farmer came to their rescue by heading their team in the right direction.

When asked regarding the west, Mr. Mills said, "Not for mine. La Crosse looks better than ever and is good enough for me." Mr. Mills is able to be around without the aid of crutches now, and is improving daily from the injuries he received from a defective telephone pole several weeks ago.

HARRIMAN STORM CENTER AT 'FRISCO

(Continued from Page One.)

insurance companies. Col. Fleming said: "The operation of insurance in honest and capable hands constitutes the most conspicuous example of modern Christianity—the fulfillment in a practical way of the command of holy writ: 'Bear ye one another's burdens.' He then argued that, inasmuch as property used for educational and religious purposes is exempt from taxation, the voluntary contributions made by the members of insurance associations should also be exempt.

"The most practical method of developing life insurance institutions," he declared, "in the west, is for the western people to insist that their legislatures shall not repeat the error that has been made in some of the older commonwealths of the union where laws effecting life insurance have been enacted that the restrictive and most oppressive in their operation. During the past few months four companies in the entire state of New York have practically gone out of business in their present

organization either through purchase or reinsurance and it has been claimed that these changes are the result of the operation of the laws referred to. It is the duty of the state to protect the citizen in the business of life insurance by requiring from companies absolute safety to the insured and an honest administration of the business. Further than this it is not the duty of the state to go, and an attempt to restrict and limit the development of insurance by laws which undertake to establish the form and conditions of contracts is irrational and unjust. It constitutes an aggravated form of paternalism and can only be justified upon the assumption that the American business man needs a guardian when he attempts to make a life insurance contract.

Wants Western Companies
"The legislatures of the western states can perform no more useful public service than by zealously fostering the development of insurance institutions within their states by enacting friendly legislation. There will be complete publicity in the business operation of life companies in the future and the institutions of insurance in the United States and Canada will continue to hold popularity and public confidence.

Denunciation Should End
"We are hearing much and reading a great deal during the present political campaign about the conflict going on in the United States between righteousness and business. It has been truly said there can be no conflict of that character unless there is dishonesty at the business end or political buncombe and Phariseism at the righteousness end. For the good of all concerned a material way and for the honor and good name of business men of America there ought to be an end to the wholesale denunciation and prescription of the great human institutions of our country. Such unbridled attacks without discrimination ought to be repugnant to the natural sense of justice of good men."

An Important Gathering.
Although there are not so many western governors present as was expected, the convention bids fair to be one of the most important gatherings of the kind ever held. The fact that this is the year of a presidential campaign has prevented many politicians and public officials from attending the convention, but the visit of the Atlantic fleet to the far east and the international problems that have arisen on the Pacific ocean will make the convention memorable.

Among the subjects in the official call for the convention are "Trans-Pacific Trade," "Hawaii and the Philippines," "Immigration," and "The Consular Service in the Far East." Under all these headings the all-pervading question "What About Japan" will crop up.

Hawaii and the Philippines are represented here with strong delegations that will try to force the question of our relations with the Nipponese Empire.

Three Sessions Each Day.
The congress will hold three sessions every day besides the sessions of the committee on resolutions that are expected to raise some questions independent of those discussed on the floor of the convention.

Every morning from 10 to 11 o'clock will be known as resolution hour. All delegates having resolutions to present will hand them in to the resolutions committee without discussion. The resolutions committee will then adjourn to an other hall and hold its discussions. The hottest fights of these conventions will come before this committee.

The last day of the congress will be given up to the discussion of the resolutions accepted by the resolutions committee and laid before the congress for action. Delegates whose resolutions failed to receive endorsement at the hands of the committee may present them to the congress for action at that time.

Noted Men to Address Meeting.
Among the speakers E. H. Harriman, the railroad magnate, and Jno. Barrett, director of the bureau of American Republics at Washington, are expected to be the main drawing cards.

Harriman is to speak on "Transportation in the Trans-Pacific Country," and Barrett is to speak on "The Extension of Our Pacific Trade." Barrett will confine his remarks principally to the South American trade on the Pacific side of the continent.

The other great subject that is to come up for discussion at the congress is "Conservation of Natural Resources." Many speakers are scheduled to talk on various phases of this subject from the standpoint of preserving the forests, storing water for irrigation and improving inland waterways.

Strong resolutions will grow out of these discussions and it is thought today that the congress will recommend to the national congress that some measures be taken to improve the waterways of the west particularly the great waterways of the Pacific slope.

The convention is to adjourn Saturday night. During the entire session, a local committee will entertain the delegates with trips to points of interest.

This is the first great convention that San Francisco has entertained since the fire of 1906 and the delegates are all wondering that such marvelous progress toward the rebuilding of the city could have been made in such a short time.

DOERFLINGER, THE ORIGINATOR

Away back in the Autumn of 1904—and again in the fall of 1905—as hundreds will remember, the Doerflinger Store ORIGINATED the "Doll Voting Contest;" it was such a success from its very inception to the finish, when the beautiful dolls were given to the lucky contestants, that we have been importuned many times since to repeat the event. After months of planning our buyer has been notified by the German makers that the dolls are ready and on their way to America—to La Crosse—via our store, to you. With them comes a number of valuable, useful, fascinating things that boys hanker after. And tomorrow, Thursday, Oct. 8, the contest starts. A vote with every 10c purchase and hundreds of presents to be given away. Not a mean, stingy lot, but enuf for a hundred or more lucky boys and girls, and handsome, magnificent gifts too—splendid enuf for you to strive for.

There are "contests" and CONTESTS! ORIGINATORS and imitators, we have no doubt but that some of the latter ilk will feebly trail along behind us with an echo—but bear in mind that the ORIGINATORS will put on the "BIG SHOW" tomorrow, Thursday, Oct. 8th. Stick a hat pin thru this date girls and boys, and you parents must remember that it won't cost anything to make that daughter of yours happy, just buy your fall needs at Doerflinger's where assortments are largest, quality highest, and prices lowest at all times, save your votes and put 'em in the ballot box for the boy or girl you like best.

NEW COURSE FOR DEAF IS POPULAR

DELAVAN, Wis., Oct. 7.—(Special.)—The high school course introduced into the curriculum of the Wisconsin school for the deaf beginning with this year, seems to be popular, for the number of applications to take this course has been large. Many graduates of 1908 are back to take advanced work. Supt. E. Walker is enthusiastic over the course. It places the deaf boys and girls on the same plane with their hearing brothers and sisters in the matter of education for the first time. Among those taking the course are: Carrie Gersdorf, Medford; Florence Worwick, La Crosse; Lotie Sprague, Milwaukee; Gwen Broderick, Broadhead; Floyd Bulmar, Elmwood; Ludwig Lendverk, Glenwood; Guy Miller, Waupaca; Edward Svacina, Rice Lake.

Miss Sprague attended the school for physical culture at Harvard during the summer session, and is fitting herself for physical culture education work in Wisconsin.

The \$40,000 girls' dormitory will be opened soon, and the school will be in a position to receive many more students.

for the election booths.

"The work of installing the booths on the various north side school houses and police stations is complete," said Commissioner Geo. Falk, "and all that remains to be done is to finish the work on the south side. I think that all of the booths will be in the buildings by the time of the November election."

NO SERVICE TO THE CATHOLIC CEMETERY

A certain individual on Main street between Fifth and Sixth having "tipped it off" to Superintendent Shaw of the street car company, that Alderman Lang was preparing a petition to the state railroad commission against the removal of the Market street track has resulted in no service there at present. The car company hustled a crew to the scene and tore up the old track before the commission had a chance to stop them, and when the new Main street line was eleven blocks from completion. The commission, however, may demand the restoration of the Market street track provided it sees fit after an investigation.

A big launch race is promised at St. Louis next Sunday for according to report Minnie C. II is again matched with the Independence of that city. If Minnie C. The Dixie II is reported to be faster than the Independence and the race should be an interesting one. This race, however, will not take place for some time.

The many uses of Gold Dust

If you were to use for each kind of washing, cleaning, scouring and scrubbing, one of the so-called special preparations which are made, you would have an imposing and expensive array of chemicals, washing compounds, cleaning pastes, etc.

There is one cleaner that can take the place of them all, and without the need of borax, ammonia, kerosene or naphtha, and that is Gold Dust.

IS SAVED FROM JAIL BY WEDDING

CELIA MORZ BECOMES BRIDE OF GEORGE MIRSKOFKI

STOLE HER WEDDING FINERY

But Judge Brindley Decides to Permit Her to Marry Her Lover Instead of Paying the Penalty

Instead of receiving a term in the county jail for larceny Miss Celia Morz, the 17-year-old girl who stole various little articles at the poor farm to wear on her wedding day, this afternoon became the wife of George Mirskofki, recently of Poland.

On the day set for her wedding, yesterday, Miss Morz was arrested, charged with having stolen a silk waist, pretty hair ribbons, and sundry other articles which she said, when questioned by Judge Brindley, she took to wear at her wedding.

Judge Brindley yesterday suspended sentence to decide which would be the better, to let the girl marry, go to jail or to the reform school.

In the meantime her lover got busy and engaged Attorney Wolfe and succeeded in getting matters so arranged that he might marry the girl of his choice and at the same time get her out of her difficulty. A conference with Judge Brindley brought about the desired results and Anton Poella, brother-in-law of the girl, was appointed guardian and he readily gave his consent to her marriage to George.

The wedding ceremony in the Polish church is a lengthy affair, usually taking about three weeks. The case has not been dismissed as yet, but will be as soon as the wedding vows are taken.

BRUMDER RESIGNS; HE IS INELIGIBLE

MILWAUKEE, Oct. 7.—The resignation of George Brumder from the republican ticket as an elector-at-large has been forwarded to the secretary of state. Brumder and John Dengler of La Crosse were named as electors at large for Wisconsin. Mr. Brumder discovered that he was ineligible under the law regarding directors and officers of national banks, and at once notified the secretary of state of his withdrawal from the ticket. In addition to his position at the head of the Germania-Herold Publishing association, Mr. Brumder is the president of the Germania National bank of Milwaukee and the latter fact makes him ineligible.

The executive committee will fill the vacancy, and Col. Wm. C. Brumder, son of the retiring editor, will likely be named.

FRENCH LICK GAMBLING HIT.

INDIANAPOLIS, Ind., Oct. 7.—Progress towards putting the French Lick Hotel company, of which Thos. Taggart is the head, and the West Baden Hotel company, which is owned by Lee Sinclair, out of business by forfeiting their charters, was made for the state yesterday when the appellate court denied a petition for rehearing in the suits to forfeit the charters of the two companies. The supreme court also reversed a recent decision, quashing indictments against habitués.

JAP FLEET WILL ESCORT OUR SHIPS

TOKIO, Oct. 7.—A Japanese fleet of 29 ships assembling at Yokohama, was designated by the Mikado today as a welcoming fleet to escort the American ships. Japan will sail two days before the American fleet arrives and the last day the two fleets will sail together. The latest plans of Sperry are that the fleet will sail from Chinese waters December 1.

MAY RENEW C. P. STRIKE

WINNIPEG, Oct. 7.—Serious dissensions have developed among Canadian Pacific mechanics throughout the west about returning to work. Mass meetings from Port Arthur to the coast suggest that the strike may be renewed. Few men have returned to work. The men are indignant that the strike was called off because they were not given a chance to vote on the question.

A man always likes to meet people who have the same grievance that he has.

When a man says a bright thing he nearly always forgets the quotation marks.

It is doubtful if even the billionaire would admit that he has more money than brains.

ARTICULAR RHEUMATISM

Kast Busy But Stops For a Moment

Kast was so busy today he could grant only a moment but said so many things of importance in that time, it was worth an hour. He conversed on Articular Rheumatism and was so earnest and sincere his talk must be published. "This is the most dreadful form of this disease, being not only extremely painful, but resulting often in deformity. The poisonous substances are secreted in the joints. Sometimes the pain is confined to only one joint, but ordinarily several are attacked at the same time with swelling, tenderness and fever, and to move or touch the affected joints causes the greatest pain. Beginning often in the fingers, it spreads to the wrists, elbows and shoulders, and from the toes to the ankle, knees and hips. The joints of the spine, ribs, jaw, neck and collar bone, are frequently the seat of pain."

He then gave the cost of Rheumaline as \$1.00 per bottle, and Rheumaline Capsules as 50c per box. These two, he said formed a Rheumaline Treatment and cured all kinds of Rheumatism, Lumbago, Sciatica, Neuralgia, Gout, and all disorders arising from Uric Acid.

He advised all those suffering from the above diseases, to call on him before he left and talk it over. He charges nothing for his advice. Drop down and see him. He is at Hoeschler's Drug Store, 123 S. Fourth street. Get the Rheumaline Treatment. It removes the cause.

AFFAIRS POLITICAL

Sherman in Ohio

TOLEDO, Ohio, Oct. 7.—Candidate Sherman left here early today in a private car for a day's tour through Ohio. The first stop will be at Piqua. Short stops will be made all along the line.

Bryan is Very Optimistic.

CHICAGO, Oct. 7.—Following an important conference at democratic headquarters today, Mr. Bryan declared reports from every section show big democratic gains. This morning he conferred with Chairman Mack, Vice Chairman P. L. Hall, Judge Martin Wade of Iowa, and Robert Ewing, of New Orleans. In a statement Bryan says:

"There is not a state in the union where our reports do not absolutely show our cause is gaining converts daily. I have not been east personally in two weeks, but advances from that section are unusually encouraging, especially in Ohio and New York."

Bryan leaves Friday at 7:32 in the morning, over the Santa Fe. He will speak Friday at Joliet, Streator, Galesburg, Quincy, Ill., and Hannibal, Mo.

Hemenway Claims Indiana

WASHINGTON, D. C., Oct. 7.—Indiana politics were discussed today by Roosevelt and Senator Hemenway. Hemenway said he estimated that Indiana would give Taft a plurality of 35,000. Today's conference is part of a general study of the political situation in all parts of the country.

At Scene of Debate.

CHICAGO, Oct. 7.—Taft went to Galesburg this afternoon to speak at the identical spot of the Lincoln-Douglas debate. He returns tonight for the banquet, where Bryan is also a guest.

Hughes at Lincoln.

LINCOLN, Neb., Oct. 7.—Gov. Hughes of New York has recovered almost entirely from his throat trouble and today, in fine voice, is beginning a tour of Nebraska. He addressed 3,500 people at the auditorium today, declaring that Bryan is clean personally, but is an impractical theorist and unsafe for the White house. When Hughes first mentioned Bryan's name, a number cheered. The governor stopped for a short time at Havelock, a suburb, and spoke 10 minutes to the Burlington railroad shopmen. He 20 speeches in Nebraska today, concluding tonight at Hastings.

ROOSEVELT ON STUMP? NOT ON YOUR LIFE!

ROCHESTER, N. Y., Oct. 7.—"If anyone tells you that Roosevelt is going on the stump, you may say he is mistaken. The president will not take any such action. I have it on authority." This statement was made here today by Bishop Earl Cranston of Washington. He said he had the president's personal word on the matter.

SAY THEY'LL BURN TOWN.

LITTLE ROCK, Ark., Oct. 7.—Cotton night riders in the district near Van Buren are making threats to burn the cotton when the selling at present prices ceases, and the whole community is greatly worked up. J. L. Rea, district manager of the St. Louis Cotton company, has received a notice to stop buying cotton at prevailing prices under threat to burn the town. Rea pretends to regard the note as a joke, but the planters and ginners are greatly worried.

Constant effort

Either a store gets better every day or it gets worse. A merchant who thinks he can stand still has need to feel the greatest alarm.

We measure our progress by our discontent with what we have already achieved, and if our ideals seem farther off, it only indicates how greatly the horizon has widened.

To lead in every sense is our ambition, and our success thus far only creates a burning desire for yet harder toil, sterner conflicts, and nobler prizes.

HELD FOR MURDER OF AGED FARMER

MRS. EMMA DREES VASKER IS TRIED AT WABASHA

SHE DENIES THE KILLING

Bernhardt Roemer, She Says, Was Lured From the House by Two Men Who Slew Him

After a hearing before Judge H. J. Paine at Wabasha, Minn., today, Mrs. Emma Drees Vasker will be held to circuit court charged with the murder of Bernhardt Roemer, a 72-year-old farmer by whom she was employed as housekeeper. The crime was committed February 20, and the prosecution charges the woman was prompted to do the murder to possess herself of the contents of Roemer's safe that she might marry Anthony Vasker. She became Vasker's wife less than three months after the tragedy.

Attorney J. W. Murdock for the defendant will show Norman W. King, the Minneapolis detective who gathered the evidence against Mrs. Vasker, was convicted in the Ames administration scandals in Minneapolis, and served a couple of years in the penitentiary. The hearing was this afternoon adjourned until next Wednesday, Oct. 14th, upon motion of the county prosecutor to permit the gathering and introduction of further testimony.

The Woman's Story.

Circumstances surrounding the crime are peculiar, and an effort to solve it was abandoned at one time by a force of Pinkerton detectives. Mrs. Vasker, then Miss Drees, on the morning of February 22, excitedly informed Chris Reister, a neighbor that Roemer was dead and that he had been murdered by two strangers who came to the house the night before to inquire the way to Wabasha. When the authorities started an investigation the woman claimed she heard a cry after the old man had left the porch with the two strangers, and that she went into the yard. She said she was fired on three or four times, and that in fright she ran to a straw stack on the yard, where she crawled into a hole and remained until daylight. Returning to the house she claimed to have found things in confusion and the safe broken open. She told the authorities that she then searched for Roemer and found his corpse frozen stiff in the roadway in front of the house.

Will Try to Prove Her Guilty.

The authorities will try to prove, when the case comes to trial in circuit court, that Mrs. Vasker knew the combination to Roemer's safe, and that she opened it in the presence of Vasker and another man a week before the murder, although she has denied this. They will also try to prove that the aged man was murdered as he sat by his own fire, side and that his body was carried to the road, that the woman remained in the house all night and kept up the fires, and did not stay under the straw stack as she claimed to have done.

A short time after the murder Mrs. Vasker informed the authorities of alleged suspicious actions of Billy Mueller, aged 26, a half witted character of the vicinity and claimed he had appeared with blood on his clothing. He was arrested at Reeds Landing, and was sent to Mendota, Wis., asylum without being implicated in the murder. A few weeks after that he escaped from the asylum, and although he has not returned to Wabasha, has not been seen since.

Maintains Her Innocence.

In the main details the story told today by Mrs. Vasker is the same as that she told when the crime was at first committed. It is in the minor details that the prosecution claims to have contradicted herself to her own harm. Mrs. Vasker was at home with her husband when arrested, and her relatives are making a strong fight to save her. The case has aroused unusual interest owing to the cruelty of the crime, and the many unsolved mysteries which still surround it. Some of the officials doubt that the woman committed the crime alone if she is guilty at all, but as yet there is no evidence to implicate any of the others in the murder. Mrs. Vasker is unflinching in her story, and went into her cell to await the outcome of her case unflatteringly. She stoutly maintains her innocence.

BASEBALL

CHICAGO, Oct. 7.—The Cubs will leave this afternoon for New York, to play off the tie game there tomorrow. Chance today said: "We will have to accept the decision of the board of directors. I suppose, but it's an outrage." Chance is angry. He related with heat the alleged actions and words of President Ebbett of Brooklyn, one of the three men who rendered the decision, and who Chance said is in no way qualified to act.

TRY TO OBLIGE "PROPHET."

FORT SMITH, Ark., Oct. 7.—Elijah Skaggs, who claims to be a reincarnation of the original Elijah, and who two months ago sought to be hung "to prove he would rise again on the third day," was visited by a vigilance committee at Warren, Ark.

With three of his followers, one a woman, Skaggs was taken to a lonely place in the mountains, where preparations had been made to hang him. The pleadings of the woman induced the vigilantes to abandon the hanging and substitute a whipping.

Russ and French Agree

PARIS, Oct. 7.—Foreign Minister Iswolsky today stated to Temps that only on condition the Berlin treaty is revised to eliminate the clauses prejudicial to Russia, will Russia support the proposed plan of revision. Otherwise Russia will insist on operation of the present treaty, ignoring the acts of Austria and Bulgaria. He declared that there is harmony between France and Russia, regarding the course to be pursued, and is confident that England will acquiesce.

Turk Mob in a Rage

CONSTANTINOPLE, Oct. 7.—Incident to the raising of the new Bulgarian flag of independence before the Bulgarian agency here this afternoon, a mob is now gathering in front of the building and threatening to tear down the new emblem. A heavy Turkish guard has been thrown about the agency, but there is danger of the soldiers being swept aside by the infuriated Turks. The sultan has pleaded with the people to take no steps that will prejudice the claims of the empire before the other powers.

Adjudged to Next Week

In order to permit the introduction of further evidence the prosecution claims to have against the Vasker woman, the case was adjourned this afternoon until next week. County Auditor at Wabasha this afternoon expressed the belief that sufficient evidence had been gathered to insure Mrs. Vasker being held over to circuit court.

His flights here have been of greater length. It is estimated he could sail from Calais to Dover in 40 minutes.

MAYFLOWER IN DISTRESS

NEW YORK, Oct. 7.—The sailing yacht Mayflower, the old time cup defender, fitted out by the Southern Research society to seek sunken treasure in the West Indies, has been dismasted at sea. When passed by the Advance Saturday, the Mayflower was flying signals of distress. The Advance attempted to stand by, but could do nothing in the face of the gale then blowing. It kept the Mayflower in sight until a fruit steamer was signaled that would care for the stricken yacht.

CHICAGO, Oct. 7.—Speaker Cannon was unqualifiedly condemned today at a session of the Rock River conference. It unanimously passed a resolution saying, "We condemn the speaker of the house and pledge ourselves to work against his re-election."

The original resolution used Cannon's name, but this was changed, and the speaker of the house substituted.

S.S.S. THE CURE FOR SCROFULA

Swollen glands about the neck, weak eyes, pale, waxy complexion, running sores and ulcers, skin diseases, and general poor health, are the usual ways in which Scrofula is manifested. The disease being deeply entrenched in the blood often attacks the bones, resulting in White Swelling, or hip disease, and the scrofulous and tubercular matter so thoroughly destroys the healthful properties of the blood that Scrofula sometimes terminates in consumption, an incurable disease. The entire circulation being contaminated, the only way to cure the trouble is to thoroughly purify the blood and restore the circulation to a strong, healthy state. S. S. S. is the very best treatment for Scrofula; it renovates the entire blood supply and drives out the scrofulous and tubercular deposits. S. S. S. is the greatest of all blood purifiers, and it not only goes right down to the very bottom of the trouble and removes the cause, but it supplies the weak, diseased blood with the healthful properties it is in need of, and in this way builds up weak, frail, scrofulous persons and makes them strong and healthy. S. S. S. is a gentle, safe, vegetable preparation and is suited for persons of any age. Book on the blood containing information about Scrofula and any medical advice free.

MINNESOTA AND THE NORTHWEST

WILL HOLD MEETING IN ST. PAUL, MINN.

GREAT NORTHERN STOCKHOLDERS CHANGE MEETING PLACE

WAS HELD IN NEW YORK

Much Speculation Aroused by New Rule, but It Is Said Not to Be Significant

ST. PAUL, Minn., Oct. 7.—Owing to a change in the by-laws of the road, the Great Northern stockholders will this year hold their annual meeting at the general offices of the road in this city in place of New York, where the annual meetings have been held during the past few years.

The change has been the subject of considerable discussion in railroad and financial circles. Only a comparatively small number of the stockholders of the road have attended the meetings in New York, it is understood, and as the directors hold their meetings in St. Paul shortly after the meeting of the stockholders, it was thought more convenient to hold the shareholders' meetings in this city. This, at least, is one of the reasons given, though some believe that it was made to avoid further opposition to the road from political sources.

Inquiry at the general offices failed to reveal any particular reason for the change. Chairman J. J. Hill is in New York, having left for that city Sunday night, while President L. W. Hill is on a hunting trip in North Dakota, and no one here seemed to care to discuss the matter. Edward Sawyer, assistant secretary and treasurer of the road, when asked about the change in the place of meeting, merely stated that it had been made because of a change in the by-laws.

At the annual meetings of the stockholders, which will be held on Thursday, Oct. 8, three members of the board of directors will be chosen to fill the places of those who retire. There was a report in New York that some changes would be effected, but inasmuch as the three directors whose terms expire, are J. J. Hill, L. W. Hill and Frederick Weyerhaeuser, there seems little likelihood of this.

The gloomiest hearts on earth are those that have never earned any glow of gratitude.

A great sorrow may be the fitting for some great service.

ARE REBUILDING TOWN OF CHISHOLM

IRON RANGE TOWN BEING SUBSTANTIALLY REBUILT

BEER BUSINESS IS BOOMING

After Many Weeks Tents are Coming Down and the Residents are Being Comfortably Housed

CHISHOLM, Minn., Oct. 7.—The work of reconstruction here is proceeding remarkably fast. It is just four weeks Saturday night since the fire occurred, and already over two hundred wooden structures have gone up, and foundations are in or being laid for a score more of brick buildings.

Lots are selling as fast as the real estate men can write out deeds. In one case the same lot was sold to two different purchasers, and adjustments had to be made afterward. Most of the business houses are established in permanent or temporary quarters. Saloons opened up with a rush as soon as Company M went back to Hibbing, and are doing a good business after the three weeks of tight lid.

There are more people in Chisholm today than before the fire. The women are beginning to return from Hibbing as places are provided for their accommodation. Skilled workmen from all the neighboring towns are employed in the reconstruction work. The relief restaurant has been closed for more than a week, and the great piles of clothing stacked up in the schoolhouse are not being pawed over for suitable sizes as they were at first, though there are still many demands for assistance. Altogether, things are beginning to settle back into the normal.

Five cases of diphtheria were discovered Saturday and the patients promptly quarantined. The quarantine is being strictly kept, and it is not expected that any epidemic will ensue.

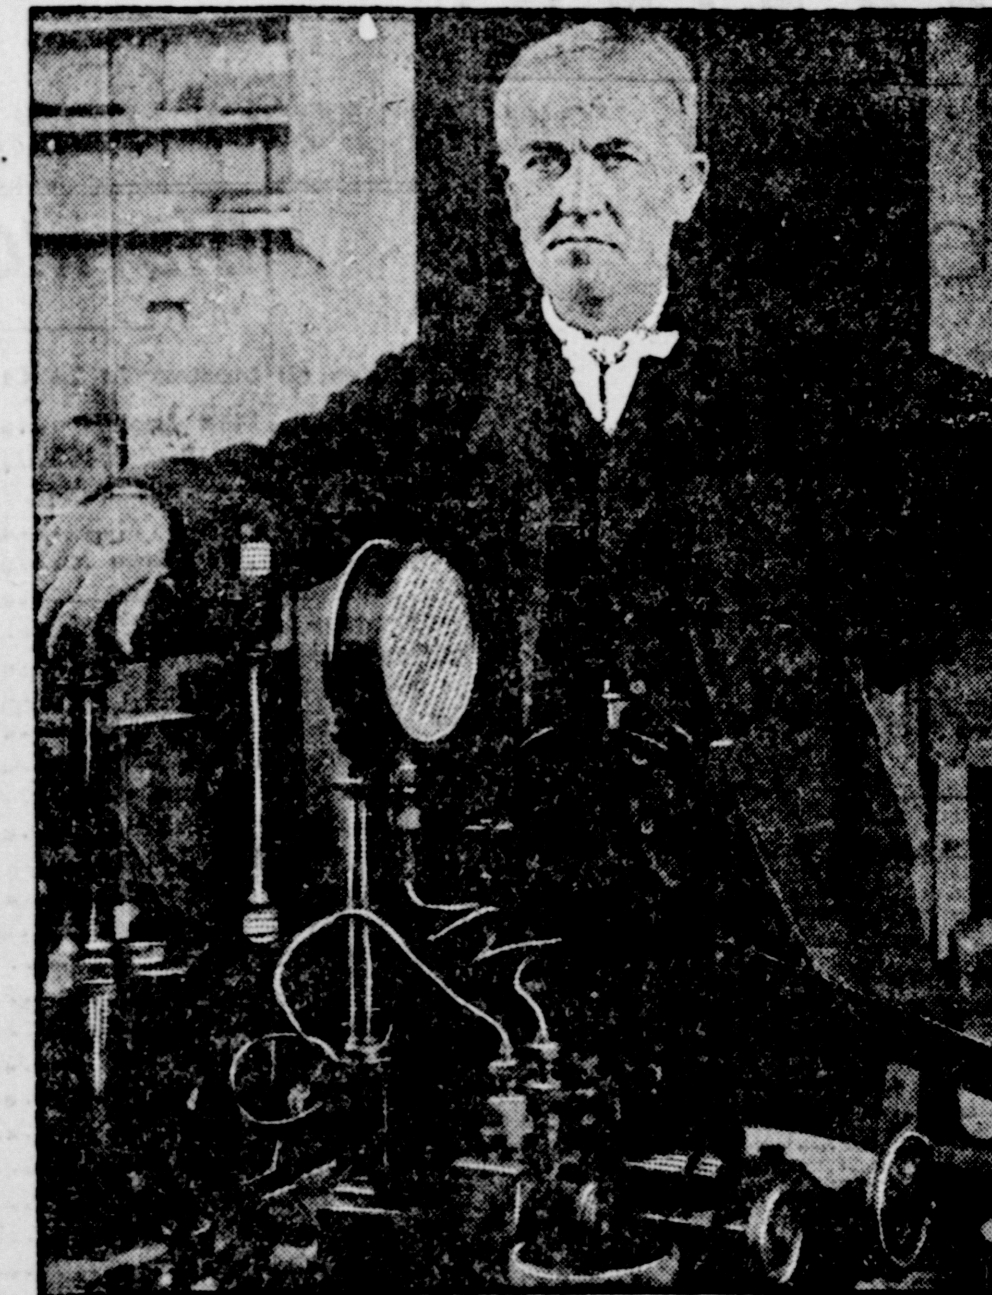

Freaky doings of the fire are still a subject for discussion on the streets. In places it leaped several hundred feet and then stopped, without any apparent cause, at the very edge of a mass of the most combustible stuff. One house stood intact, with everything around it burned to ashes. The fire had evidently reached it, for it was scorched on all sides.

THOMAS EDISON'S HOME AT LLEWELLYN PARK, N. J.

(Copyright by Underwood & Underwood, N. Y.)
Remarkable snapshot of Thomas Edison, wizard of electricity, in his laboratory at Llewellyn Park, N. J.

LLEWELLYN PARK, N. J., Oct. 3.—The wizard of electricity, Thomas Edison, scarcely knows what vacation means. It is Edison who is responsible for the phrase now so popular: "All things come to him who hustles while he waits." His energy and nervous force seems tireless, but if any one supposes Mr. Edison does not enjoy himself and never misses his vacation he would be wrong, for there is no happier man in the world than Thomas Edison when he is in his laboratory studying out some new invention. Instead of the overdone book shelves as a hobby Mr. Edison's chief source of delight is his laboratory, which adjoins the house and where he spends much of his time. It is no uncommon thing for him to spend two or three days and nights in his laboratory without sleep and almost without food when he is wrapt up in some new device.

The house is a three-story affair, magnificently designed and located in the midst of an estate of many acres and surrounded by trees and shrubs which are as near to nature as it is possible to get in a community as inhabited as the section in New York in which Mr. Edison resides. His large porch affords him many pleasant hours of pleasure and study.

MINNEAPOLIS SCENE OF GENUINE HOLDUP

MINNEAPOLIS, Minn., Oct. 7.—A genuine western holdup, pulled off in Minneapolis, in the good old-fashioned way, was perpetrated by two well-dressed young men, heavily masked with handkerchiefs and armed with a heavy army revolver, in the saloon of Peter Belline, 1629 Washington avenue north, Minneapolis. The bandits secured a little over \$35, and were prevented from securing \$200 more by a desperate dash for the rear door of the saloon by Mr. Belline, at whom the robbers fired a shot as he vanished through the rear door, but were frightened away by his cries.

Peter Twombey, a brother-in-law of Belline, was the only other person in the saloon at the time of the holdup. He received an ugly gash across his forehead as the result of not raising his hands above his head in exactly the manner the bandits ordered him to. The police of Minneapolis scoured the city in search of the men, of whom they have a good description, but were unable to find the slightest clue.

CHILDREN TAKE PILLS—POISONED

MINNEAPOLIS, Minn., Oct. 7.—As the result of the distribution of pleasant tasting samples of a patent medicine for the cure of kidney and liver troubles, half a dozen Minneapolis children living in the neighborhood of Colfax avenue and Twenty-sixth street east, in the Lowry Hill

residence district, were poisoned.

The samples were widely circulated about the hour that the children were coming home from school. A few of the young ones tasted the pills, and finding them agreeable to the palate, soon spread the news to the others, and the trail of the distributors was soon taken up and the pills gathered. Shortly after the children became ill with stomach trouble. It is said that many more took sick besides those reported to the police, and a general epidemic is expected.

The authorities are taking up the matter with a view of prosecuting the distributors. As far as can be learned none of the children became critically ill, but some of them will not be able to attend school. No adults have been reported ill, and it is probable that the children are the only ones who partook of the medicine.

ALLEGED HOLDUP MEN ARE JAILED

BISMARCK, N. D., Oct. 7.—Sheriff D. J. McGillis captured two men who are alleged to have held up a clerk in the S. T. Parks store at Sterling. The prisoners are Floyd Elliott and Walter Caddell. The latter is said to be one of a gang of horse thieves that have infested the Cannon Ball country for ten years and is an important capture. They were taken while trying to cross the Missouri river and are now in jail at this point. The punishment is from one year to life imprisonment, in the penitentiary.

CIGAR FACTORY BLOWS UP

BELLE PLAINE, Minn., Oct. 7.—A gasoline lighting system blew up in Frank Werrick's cigar factory. The factory was in the old Belle Plaine hotel building. The factory itself is a total loss, and the whole east end of the building is damaged by fire and water. The firemen had water on the building a few minutes after the alarm.

The explosion was heard all over the city.

CHARGES BRIBERY IN LOCAL OPTION

COLUMBUS, Ohio, Oct. 7.—State Superintendent Wheeler of the Anti-Saloon league charges bribery and illegal voting in Monday's county local option election. A court investigation will be asked. Six counties went dry. One, in defiance, retains its saloons. It is here that Wheeler charges that illegal practices were resorted to.

Some People Compromise

When they think it is "too hard" to quit coffee at once and shift to straight Postum, they compromise the case by using Postum with a little coffee in it. Of course, that isn't "strictly business" and a person will not as quickly recover from coffee ails as if pure

POSTUM

were used, but the compromise is better than to stick to the old coffee habit and continue to suffer. Gradually less coffee can be put into the brew and soon only Pure Postum is used. Then can be expected that the old aches and ails will disappear.

"There's a Reason" for

POSTUM

Postum Cereal Co., Ltd., Battle Creek, Mich., U. S. A.

THIRTY YEARS A Slave to Coffee.

Many persons do not realize that coffee drinking may become a powerful, enslaving habit.

They are not aware that coffee contains a drug—caffeine—which ought never to be taken into the system except for certain disease and then only when prescribed by the doctor.

The coffee habit grows on most users and is more harmful to some than others. But a drug that acts upon the heart and nerves in the way caffeine does, is not without greater or less harm to all who drink coffee.

"For thirty years," writes a Wash. housewife, "I have been a steady coffee drinker. I wanted it at every meal."

"But I would have sick headache most of the day, and throw up my food. I really suffered awfully from coffee, yet thought I never could stop it."

"Then I heard how good Postum was for such cases, and began to use it. At first I did not care for Postum. I felt sleepy and had headache. I soon found that this was because of the hold coffee had on me, for in about three days after I quit coffee and began to use Postum the headache left me, had no more nervousness and palpitation. In about a week I felt like a new woman."

"I have used Postum three years and when it is made according to directions (boiled 15 minutes)—it is as pleasant as coffee and don't hurt anyone. I ought to know for I was as bad off as anyone is likely to get from coffee drinking. Now I am well."

"There's a Reason." Name given by Postum Co., Battle Creek, Mich. Read the little booklet, "The Road to Wellville," in pkgs.

BADGER HOPES RISE; VETERANS IN LINE-UP

MADISON, Wis., Oct. 7.—Wisconsin showed that it possessed both defensive and offensive strength, and hopes of defeating Lawrence on Saturday by a comfortable margin are high. For the first time, Keckie Moll was put into the scrimmage, and he ran the team with excellent judgment. Messmer was back at his old position at guard in the signal work, but during the scrimmage Stoppenbach took his place, with Boyle and Osthoff at tackle. Wilce, who has played center during practically the entire season so far, was shifted to the back field and Arpin, a strong crew man, played center, where he showed great speed. Culver was at fullback, alternating with Muckleston, Richards, Bunker and Wilce, were the backs.

Coach Barry had the team play on the defensive against the seconds for ten minutes, and in practically every play, the reserves were thrown back for losses. Osthoff, who has a cinch on one of the tackle positions, repeatedly broke through the line and downed the runner behind the place of scrimmage. Arpin and Rogers intercepted forward passes by the seconds during the defensive work and ran half way down the field for touchdowns. On the offensive, the varsity appeared equally strong, the men playing with lots of snap and ginger and sending Wilce over the line for the third touchdown in a few minutes.

ROBBERS "CRACK" SAFE AT BRANDON

BRANDON, Wis., Oct. 7.—The postoffice was broken into and \$200 in currency and stamps was taken. The robbers blew up the safe. It is thought that the same gang which robbed the bank at Ladysmith a week ago and which blew the safe at the Warrens bank Friday night had a hand in the robbery.

OLIVIA, Minn., Oct. 7.—The state bank of Danube was robbed early today. Twenty-three hundred dollars in cash was taken.

TRAIN HITS WRONG SWITCH

RACINE, Wis., Oct. 7.—A bad wreck was narrowly averted on the Milwaukee road a short distance west of Union Grove. A work train engaged in constructing a bridge was overtaken by the 1:30 o'clock west-bound passenger. The work train hurried to Union Grove to let the passenger train pass, but ran into the wrong switch and struck a car loaded with tile, completely wrecking it. The locomotive was also demolished. The fireman and engineer escaped by jumping. Traffic was delayed.

SEEK LAND IN WIND.

DALLAS, S. D., Oct. 7.—A raw wind marked the second day of the Rosebud lottery registration. Several thousand persons arrived at midnight, registered and left before daylight. O'Neill of Nebraska is getting big credits. One of the biggest days expected here will be tomorrow. Gamblers failed to get street concessions, and everything is moving quietly. Not an arrest has yet been made.

BAD FIRE AT DEER CREEK.

FERGUS FALLS, Minn., Oct. 7.—The John Davis feed mill and food store and machinery implement house at Deer Creek, together with the farmers' elevator, burned to the ground Monday night. Mr. Davis' loss is about \$10,000, with no insurance. The farmers' elevator was a co-operative concern, owned by the farmers of the neighborhood, and the loss is not definitely ascertained. The origin of the fire is unknown.

REGISTRATION DECREASES
NEW YORK, Oct. 7.—Despite the fact that New York's population has grown 400,000 in four years, the complete returns today from the registration shows a decrease of more than 27,000 over the figures of four years ago. One reason is believed to be that a Jewish celebration occurred the same day as the first day of the registration.

CELEBRATE GOLDEN WEDDING

BELOIT, Wis., Oct. 7.—Mr. and Mrs. John Ritcher celebrated their fiftieth wedding anniversary, their children, Edward C. Ritcher and Mrs. Carrie Bullard of Chicago, coming for the event. Mr. and Mrs. Ritcher were married in Beloit and have made their home here ever since.

CAN YOU SOLVE THE FORAKER FOOTBALL PUZZLE

(From the New York World.)

The above print, which is known as the Foraker football, can be made into an exact picture of a football.

The puzzle is simply to assemble the pieces so they represent the football which the originator of the puzzle, Sam Lloyd, has designated as a Foraker football, because of the way Mr. Foraker has been pounded about by various political parties. The puzzle looks simple enough but it is well worth the trouble to attempt the solution of this in order to find out how hard it really is.

Mr. Lloyd will probably send you one of those handsome medals if you succeed in solving it in less than 24 hours.

It takes more than a loathing of hell to lead to heaven.

FREAR DISCUSSES ECONOMY QUESTION

SEC. OF STATE SPEAKS AT JUNEAU COUNTY FAIR.

DEMOCRATS SPENT MUCH

Claims that the Feature of Their Administrations Has Been Liberal Use of People's Money

ELROY, Wis., Oct. 7.—(Special.)—Speaking at the Juneau county fair this afternoon on the question of the economy of republican administrations, as compared to democratic ones, Secretary of State James A. Frear declared the last democratic administrations in this state were notable mainly for their liberality with the people's money.

"The contingent fund which is placed at the disposal of the governor showed expenditures of \$2,950.84 for Governor Davidson for 1907 and 1908," declared Mr. Frear. "During the economical administration of Gov. Peck, eighteen years ago, and during 1892 and 1893, the contingent fund contributed \$6,437.96 to his comfort, of more than double the amount expended by Gov. Davidson. The state veterinarian department in 1907 and 1908 expended \$6,851.57. In 1893 and 1894, when economy was the watchword, the democratic state veterinarian expended \$10,304.56, or 50 per cent more than under the republican administration. The capitol labor force which ordinarily would increase in numbers and expense for the additional work which it has been called upon to perform, cost the state \$46,267.02 in 1907 and \$50,907 in 1908. Back in the democratic times when economical conditions were supposed to exist, the cost of the capitol labor force in 1893 was \$64,237.93 and in 1894, \$60,161.97, or 25 per cent higher than during the republican administration.

"A comparison of legislative expenses is equally interesting. In 1893 the spirit of democratic legislative economy was shared by 227 employees who served the state 100 days at a cost of \$51,907. The last legislature had only 90 employees and their expense was only \$54,347 for the entire session of 189 days."

Mr. Frear showed that additional work had been placed upon the departments of government and that nearly all of the commissions are self-supporting. He declared that the reductions of freight rates in one year alone would pay for running the commission a decade.

MANY VIOLATIONS OF STATE GAME LAWS

RECORDS SHOW THAT 504 HAVE DISOBEYED GAME LAWS

FINE BOUNTY IS LARGE

In the Past Year the State Has Collected, Through Fines for Disobeying Game Laws, \$6,745

MADISON, Wis., Oct. 7.—(Special.)—In nine months the state game warden's office has made 504 arrests, a record of activity that surpasses all previous ones. There were collected in fines as a result \$6,745 and the costs of the actions were \$1,485.09. Contrary to the general belief no part of the money collected in fines as the result of arrests for violations of the game laws goes to the support of that department. Two-thirds of the total fine collected goes into the school fund of the state, which for the past nine months would amount to over \$4,000, and the remaining one-third goes into the treasury of the county in which the action is brought.

A number of violators were given jail sentences. One man got five days; two were given ten days; two twenty days; sixteen were sentenced to thirty days; one to forty days, and one to sixty days. One boy was sent to the reform school.

The report of the number of seizures for the past nine months shows that 325 were made, the sales of the confiscated goods amounting to \$1,507.51. The department has already issued 253 non-resident small game licenses at \$10 each and 21 non-resident deer licenses at \$25 each.

"The reports from the county clerks of the state, who issue the settler's licenses indicate as a rule that there has been an increase over previous years," said State Game Warden J. W. Stone today. "This is largely due to the formation of rod and gun clubs throughout the state, which cooperate with the department in enforcing the game laws."

The Stomach Does Not Cause Dyspepsia

Neither Will It Cure It Because The Lack Of Gastric Juices Prohibit Relief.

The stomach is a strong, powerful organ, which is composed of muscles of great strength. It is filled during digestion with gastric juices which, when the stomach, extending and compressing the food, dissolve it and separate the nourishment from the waste matter. If, however, these gastric juices are lacking, the stomach is not capable of digesting its food because it has not the tools with which to work successfully.

The gastric juices when in a perfect state do away with all foul odors, fermentation and decay, reduce the food to a disintegrated mass and the stomach then presses it into the intestines where another form of digestion takes from this mass of food all that is nourishing and give it to the blood. The waste matter is thrown from the system.

If instead of nourishment the intestines receive impure deposits combined with a poisonous and imperfect gastric juice, it can be readily seen that they must turn such imperfect nourishment into the blood. The blood then being unable to give each part of the body that which it requires, becomes impoverished and disease is spread broadcast.

Stuart's Dyspepsia Tablets corrects such a condition at once. If the gastric juices are lacking, and imperfect these tablets do their work just the same. They build up the elements in the juice which are lacking and remove those elements which cause disturbance.

Meat, grains, fluids, vegetables and delicacies, in fact each portion of a large meal have been placed in the stomach and Stuart's Dyspepsia Tablets have digested them to a perfect fluid just as a healthy stomach would do.

A large complex, hearty meal holds no terrors for a dyspeptic if Stuart's Dyspepsia Tablets are used. Abnormal eating, late dinners, rich foods cause ill effects to the stomach, but when Stuart's Dyspepsia Tablets are used one may eat when and what one will without danger of dyspepsia or discomfort.

Forty thousand physicians endorse and prescribe Stuart's Dyspepsia Tablets and every druggist carries them in stock, price 50c. Send us your name and address and we will send you at once by mail a sample package free. Address, F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

First Floor Salons.

Thru a careful scrutiny of our Corset Stocks we discover too many styles of a family—too many models that are so similar it seems an unnecessary waste of space to carry them all. So we have carefully segregated the styles and culled out 14 numbers of the famous "KABO" Corsets—every one a popular favorite and a leading seller, but every one has its almost exact replica in the stocks. Most of these numbers—or models—are your favorite corset, the very corset you're wearing while you read this chat—more familiar to you than your next door neighbor's face—and we say good-bye to them reluctantly, but we MUST have the room they occupy—so we offer you tomorrow—THURSDAY ONLY—your full, free and absolute choice of fourteen numbers of popular \$1.00 KABO CORSETS for **77 Cents**

Every pair carefully fitted by an expert Corsetierre.

CORSET CHAT

(Scene, in a fitting-room after the large woman has been fitted in the corset adapted to her figure.)

She: "Now please tie it for me, for I never disturb the laces."

The Corset Expert: "That is exactly what you ought to do every day of your life! Your corset should be laced afresh each morning."

She: "Why, I never knew that before! What is the reason for re-lacing?"

C. E.: "It is not so much that corsets keep their shape better. But you can't possibly put them on properly when

they have fallen into a habit, as one might say. You should pull the corset open at least six inches in the back. Then put it on, settle it well down in the waist, and be sure it isn't too high under the arms. The back mustn't be too high either, or before you know it you will have an 'old back'."

She: "Yes, what next?"

C. E.: "Fasten the corset from the top, drawing it well down into the waist line, and fasten the several pairs of hose supporters to the stockings—this is very important, indeed."

She: "Why?"

C. E.: "Because all these little things help to give the figure proper poise. For the large woman it is the law of the Medes and Persians that she shall carry her abdomen in and her chest up."

She (thoughtfully): "What sort of underclothing must I wear?—since I am going to reform and be beautiful?"

C. E.: "Just as little as you can be comfortable in. No more gathered petticoats, no belts. Begin with the smoothly fitted undervest or union suit. Next the corset. Next the drawers, and little inner petticoat—both cut circular round the waist. Then the corset cover and silk petticoat, the latter fitted by darts and set low on the hips. Some women prefer a shaped chemise that is corset cover and short petticoat in one."

"So dress inside you are ready for the most perfect gown the tailor can make you, madame! But there is everything in getting the right corset to start with."

THREE TYPES OF POPULAR AUTOMOBILE COATS AND VEIL FOR FALL AND WINTER

At the left is seen a very attractive coat of striped black and gray serge, trimmed with black and white soutache. In the center a loose coat of broadcloth in dull ecru, which is especially popular in the eastern metropolis. At the right a novelty coat of white silk lined with fur is shown. The hood and cuffs are of Persian lamb.

NEW YORK, Oct. 5.—The approaching fall and winter seasons the devotees of the automobile are seeking the loose models in outer garments to be worn while enjoying the cold, bracing air. This year, more than ever before, novelties prevail.

One of the most popular of these novelties is a fur lined coat covered with double silk, which affords ample protection and is attractive in appearance.

The broadcloth suits are always practical and neat and many are adopting these for winter wear. A very attractive black and gray serge with stripes running diagonally has been designed and made by Bechoff-David and has attracted much attention.

FOND DU LAC FEARS FIRES

FOND DU LAC, Wis., Oct. 7.—Municipal ownership of the water company's plant, additional fire fighting apparatus, the abolishment of garages in the heart of the city and the installation of a new fire alarm recording system are among the things deemed necessary by the common council to insure better fire protection for the city.

The state railroad rate commission will be asked to appraise the value of the water company's plant here. After this has been done the council, according to action taken at a meeting last night, will endeavor to purchase the plant.
